Being the head of this institution, I am trying my level best to provide value-based education with the help of worthy & dedicated teachers. And I also appeal all the parents for your valuable co-operation and hope that all of us shall contribute to inculcate values and ethics in our pupils so that they emerge as responsible citizens of our country.

Dear students, as you know success is not an opportunity but it is the fruit of toil and hard work. So be focussed & determined towards your goal. Always believe in yourself because willpower is essential to the accomplishment of anything worthwhile. Sometimes later becomes never so do it now. It always seems impossible until it is done. May you succeed and prosper in all walks of life!
